

Strengthening U.S. Competitiveness Through Smart Manufacturing

Haresh Malkani, CTO

ORAU-Manufacturing USA Webinar
2026 February 18

mission. strategy. role.

Driving the **next wave** of manufacturing productivity, energy productivity and competitiveness through **smart manufacturing innovation**.

2017

Founded by the **D.O.E.**, A Program in **UCLA**

\$200M+

Private/public partnership

Improve energy productivity

through **sensing, control, modeling, analytics & platform** technologies

How.

Fund the **Innovation and R&D** necessary to dramatically **reduce the cost & complexity** of using real time operations data to drive revenue & cost improvements.

*CESMII represents the **voice of manufacturing**; engaging the smart manufacturing ecosystem through a membership model*

210+ Members

Manufacturers
Small, Medium & Large

System Integrators & Consultants

Machine Builders

Technology Providers

Academia & Labs

Accelerating the Democratization of Smart Manufacturing

CESMII is enabling smart, sustainable operations for ALL manufacturers, driving the next wave of manufacturing productivity, energy productivity and competitiveness through smart manufacturing innovation.

Technology

Enabling Technologies that
Decrease Cost & Complexity
and Standards Advocacy

Knowledge

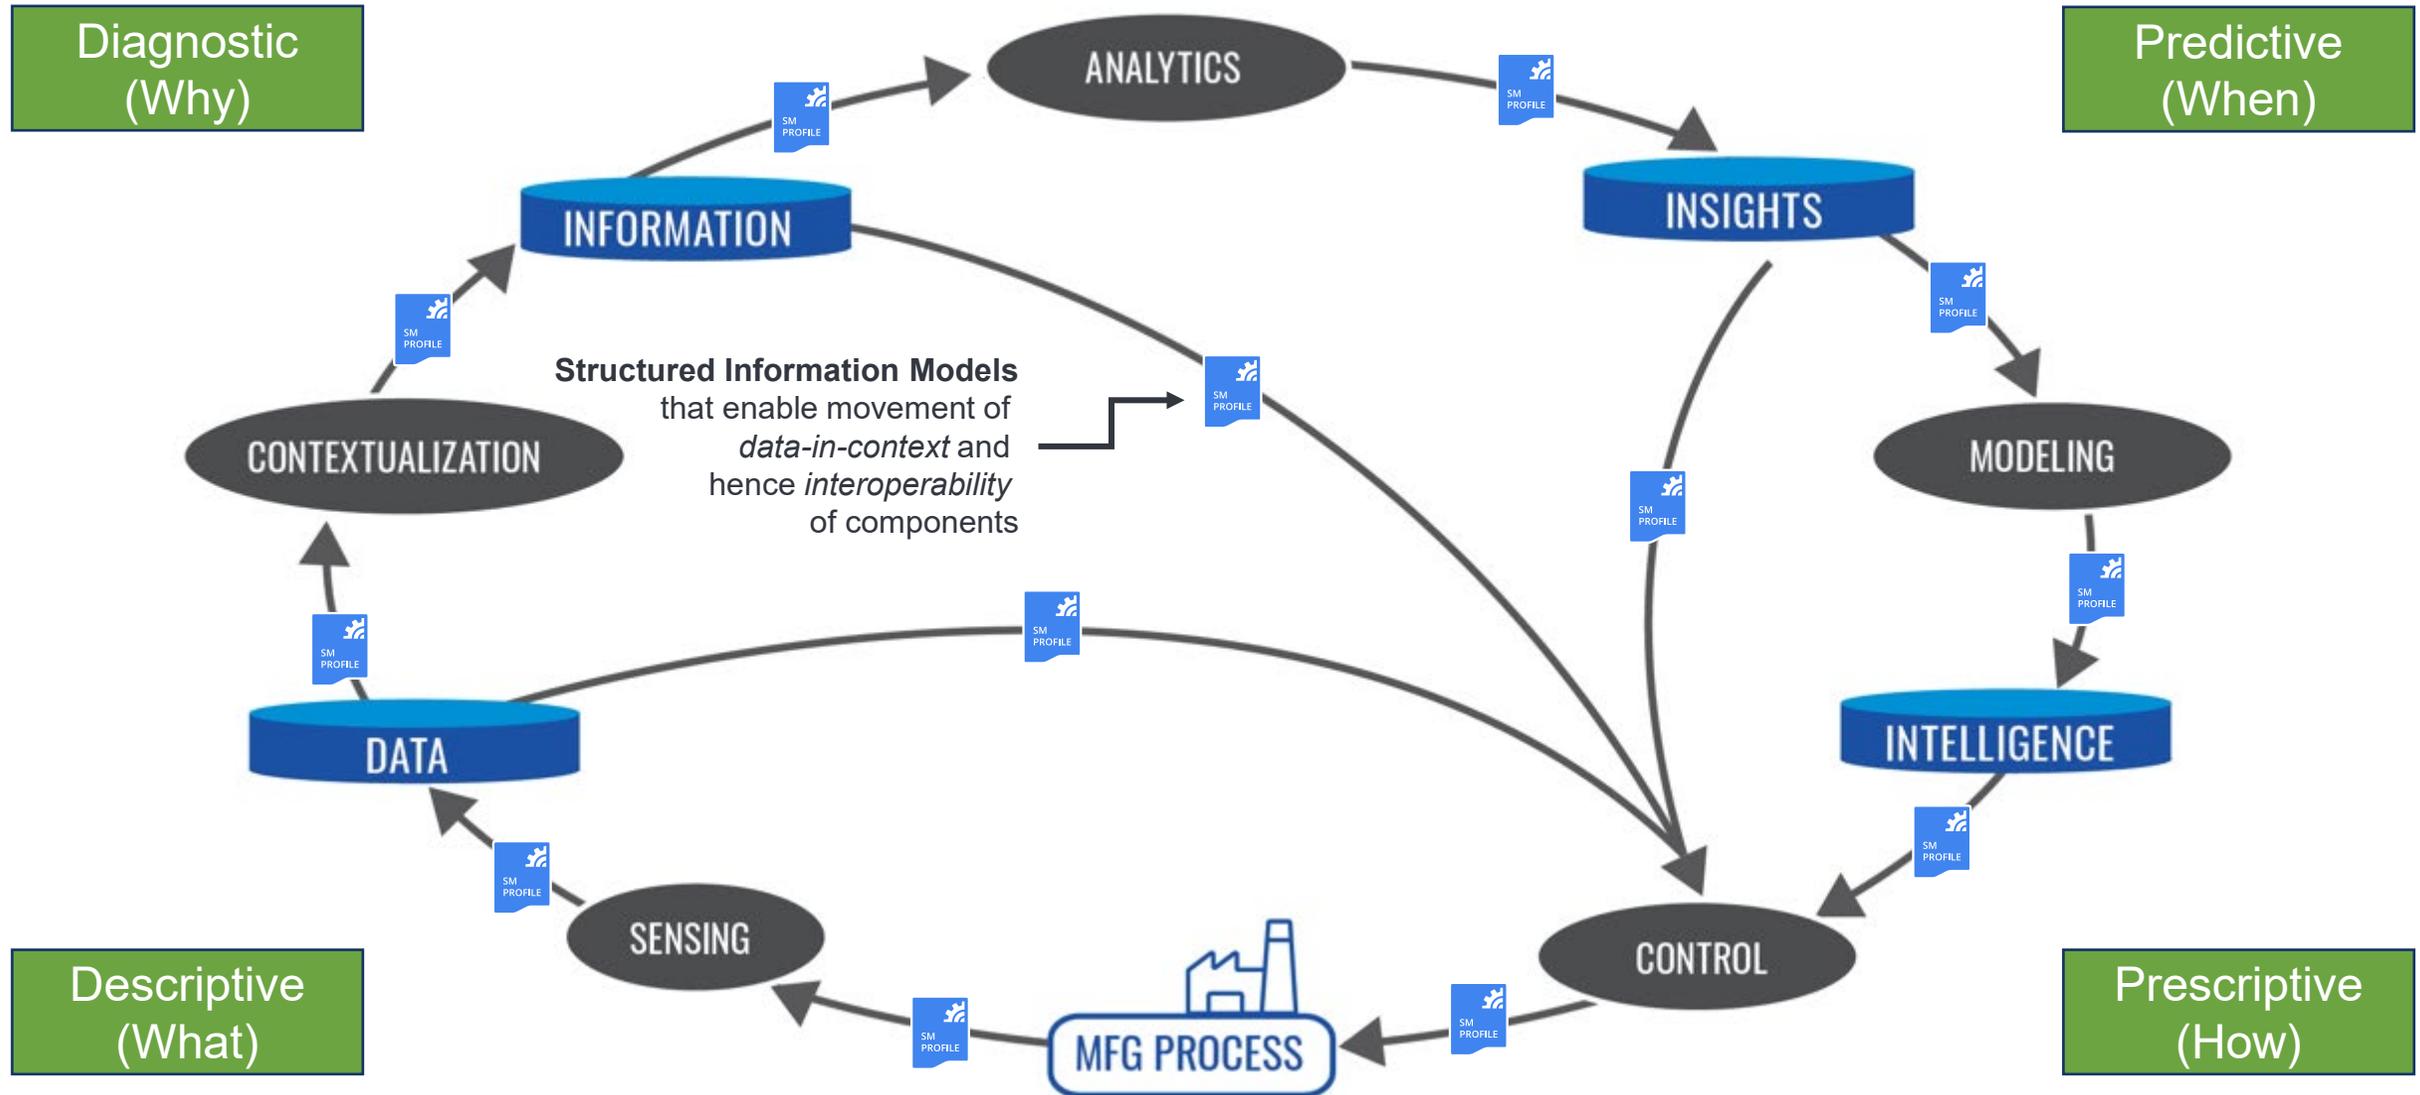

Education, training and
organizational capabilities that align
resources & people for success

Ecosystem

Convene all relevant industry
stakeholders to accelerate the
adoption of Smart Manufacturing

SM Technology Building Blocks and Information Flow

The CESMII Story

THE SMART MANUFACTURING INSTITUTE

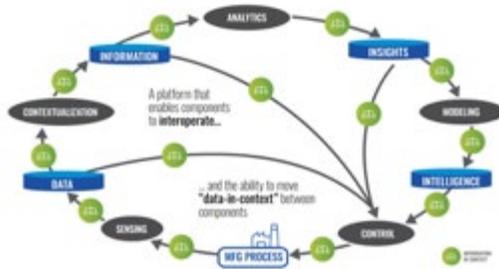

1

Develop SM technologies to solve manufacturing problems

SM Building Block Technologies

Multiple Industry Verticals

10-25% economic impact on operations and energy

- ✓ Productivity
- ✓ Quality, Yield, Waste
- ✓ Energy consumption

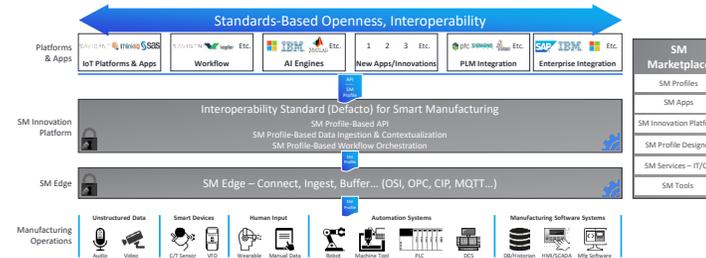

2

Accelerate SM Adoption in SMMs and Supply Chain

SM Innovation Platform, Profiles, Marketplace

Small & Discrete Manufacturing

25-50% reduction in SM implementation costs

- ✓ Performance & Productivity
- ✓ Implementation Cost/Complexity
- ✓ SMM & Supply Chain Adoption

3

Upskill the Workforce Through Education, Training

SM Education and Training

Talent Pipeline & Incumbent Workforce

6+ new curriculums, >2000/yr students and professionals trained

- ✓ Education & Training
- ✓ Upskilling
- ✓ SM adoption

Smart Manufacturing Innovation Centers (Dissemination of Technology and Training)

Industries We Impact

~60 Collaborative R&D Projects

55+ Participating Member Organizations

15 Industry Verticals

10-35% in Energy Reduction Demonstrated

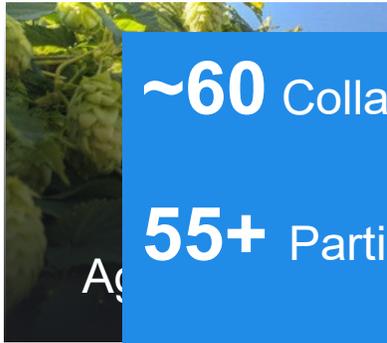

10-40% in Productivity Improvement Demonstrated

25-50% in SM Implementation Costs Demonstrated

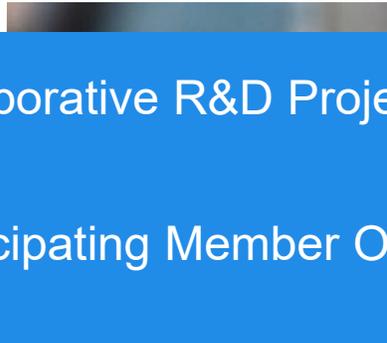

28 Projects Using ML, Predictive Modeling

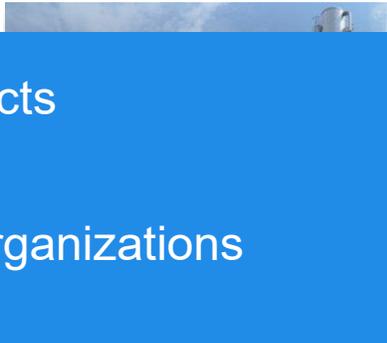

Steel

Centers**

**SM Executive
Council**

Focus on Scaling and Deployment

What is Needed for Broad SM Adoption

- Cost effective, vendor agnostic, standards based, **interoperable infrastructure technologies** to democratize and proliferate SM
- **Educate and train the workforce in SM** – understand, implement and sustain SM solutions
- Industry **Use Case Driven SM Adoption across** small, medium and large manufacturers
- **Ecosystem of technology and education partners** that can provide expertise and collaboratively drive SM adoption

**Join us
in making a dent
in the Smart Manufacturing Universe!**
