Exercise Builder Energy™
The application for energy resilience management

Exercise Builder Energy is currently under development with an expected release in Summer 2023. It is modeled after ORAU’s highly successful emergency exercise applications currently used by the nuclear power industry and the federal government.

Exercise Builder Energy (EBE) is the solution. Energy companies need a software application that solves several issues simultaneously. Building an exercise can go from days to minutes. Exercise manuals and reports can be generated in seconds. Data from exercise evaluation results across time can be compiled into meaningful metrics that drive emergency preparedness improvements. The entire organization has a “one-stop shop” to utilize all of these capabilities.

Benefits:
1. Improve consistency and standardization across the organization
2. Build drills and exercises very quickly from a repository of data
3. Generate manuals, reports, and other documents from a variety of templates
4. Access your data anytime and anywhere you have an Internet connection
5. Evaluate jurisdiction and business unit performance over time
6. Collaborate with peers and share data with partner organizations
7. Facilitate the identification of strengths, weaknesses, and best practices

ORAU Security and Information Technology

ORAU continuously improves its compliance to national standards in physical and cybersecurity. We provide adequate data back-up and recovery, appropriate equipment redundancy and appropriate monitoring and contingency plans to meet the security expectations of our clients. ORAU holds and maintains an Authority to Operate under the U.S. Department of Energy standards.

Who We Are

Scientific and technical contractor
75 years of experience
150+ member university consortium
501(c)(3) nonprofit status

Specialized expertise:
- Workforce Development & Technical Staffing
- Scientific Assessment
- Health & Environment
- Preparedness & Response
- Research & University Partnerships

Ways to Work With Us

GSA Contracts
- Professional Services - http://orau.us/gsaschedule
- Human Resources Services - http://orau.us/hrgsaschedule
- One Acquisition Solution for Integrated Services (OASIS) - http://orau.us/oasis

Strategic Partnerships
Project agreements under Oak Ridge Institute for Science and Education contract with the U.S. Department of Energy

Agency-Specific Contracts
